Boat location: Wanssum / The Netherlands (inside showroom) 73 pictures on our website grandyachts.eu and in high-resolution upon request. --Tech-specs below description-- With the 33 foot the yard created a sportsboat with a good footprint. A wide 8 head cockpit wasn’t good, wider not good enough, so the designers at Airon took the very last option and created the widest cockpit on a 32 foot model on the market today. The benefits will speak for themselves and this sports cruiser -with dimensions normally found on much larger boats- just is a space wonder! A huge bathing platform, cockpit for 8 people, two cabins, a galley and salon down

Cockpit: Probably the most unique feature on the 325 is her cockpit, which is basically one big lounge area that provides ample space for approx. 8-10 people. If your family and friends enjoy soaking up the rays, you'll love the bow sunlounge. A helm seat with good 360 degree view up front and behind a full beam U-shaped seating area where you can sit with at least 8 guests in comfort. The fully hydraulic adjustable cockpit table can be positioned in any desired height with the touch of a button and thus ensures pleasant dining with a fully opened table at dining height or you just set it lower for usage as a lounge bar cocktail table. The underneath engine room has the identical button that opens with a simple push of your finger. At port and opposite of the captains helm there is a two seat bench for the companion that rides along. The cockpit provides multiple storage lockers to store the daily uses items whilst under the cushions you find even larger storage for the typical non-daily items. Some modern foot light leds and overhead radar arch lighting complete this very well designed cockpit. All seats are brand new upholstered with Sunbrella® waterproof material. The carpets and the entire Sunbrella cockpit cover are brand new as well. Helm position: What more do you need? Bow thruster and 2 x 170hp within reach... The helm position at starboard provides a comfortable seat for two and also the option to flip up the seat when you want to take her out for a more sporty ride or dock the boat. During the extensive sea-trials we’ve done the boat performed very well at all speeds and the helm provided me with all necessary info’s. A rudder angle indicator, red lighted oversized compass, speedometer and integrated echo sounder completes the boat with all electronics needed. Saloon: All you need is there This saloon looks great, modern materials like alcantara and golden fabrics to create an interior that matches todays standard. Spacious wise it feels like a 40 or more footer

boat. Indirect lighting gives you a warm and stunning saloon when the other 3 of 4 zone saloon lighting is not wanted. Super sturdy stainless portholes ensure the entrance of fresh air. Galley: Opposite of the seating area the galley is found on her port side. This galley is fitted with a large Waeco fridge, an electric 2 zone HOB and a good size sink with stainless mixer tap. Furthermore you find ample storage above and below the wide galley. Owners cabin: The owners cabin is placed traditional wise in her bow and has a good sized double berth that is accessible from the front. Multiple storage lockers left and right of the berth. Fancy hotel switches are mounted just where you need them to switch on on/off reading lights, overhead lights and indirect lighting. Bathroom: An ensuite bathroom with double entrance is used as day head and owners head, full length 1.93m shower with ceiling browser, teak shower floor and a plexiglass half-circle shower door keeps wet and dry separated. The electric marine toilet with macerator is hidden under a grp lid, furthermore you find a well sized marble top sink and plenty of storage. Guest cabin: The guest cabin is situated under the cockpit over the entire beam. Just 4 steps down from her cockpit the comfortable guest cabin. Bathroom: Like mentioned before it’s very well sized, comes with electric marine toilet, grp top and a good shower. Engines, gen-set, gearbox, hydraulics and controls: 2 x Volvo Penta KAD32 2 x 170hp 435 hours only!! Stainless steel propellers Full hydraulic steering with power assistance Bow thruster Specifications: Length: 9.78m Beam: 3.10m Draft: 0.8m Cabin headroom: 1.95m Displacement: 4000kg Fuel: 425 Litres Water: 150 Litres plus boiler Cruising: 28 knots Maximum: 33 knots Bow thruster: electric Design category: B (8 persons) Lay-out: Cabins: 2 Berth: 4 + 2 Toilet: 1 Master cabin over her full beam in forward Bathroom Guest cabin over her full beam in stern Convertible saloon to double berth Large saloon Large galley with all facilities General: Full cover and bimini top Winter cover Tonneau cover Electric up/down cockpit table Electric up/down engine room hatch Sound system in saloon New VHF VDO rudder indicator Simrad depth sounder Offshore compass Life raft New carpets New upholstery Electric macerator marine toilet Lofrans electric anchor winch Bow thruster control Large compressor fridge saloon Teak on platform Heavy duty swimming ladder Outside shower with hot/cold mixer tap Indirect platform lighting Galley: Dual zone HOB Large sink with mixer tab Waeco fridge and freezer Avonite worktop Waste disposal bin Overhead and concealed lighting Disclaimer Focus Marine Center offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel.
